Modern Classics

Reverb Pack

Thank you for purchasing the **Modern Classics Reverb Pack** from 3SA! This pack contains a collection of handpicked room responses ranging from a small intimate recording studio to a massive symphony center. Also included is a pristine collection of responses from the legendary Eventide SP2016, as well as custom made 3SA Hybrid Responses. Our Hybrid Responses have been used on top pop recordings for a number of years and we are very happy to finally make them commercially available.

Now go make some music!

Preamp	SSL G Series
Microphones	Shure SM57, Microphone Parts MP47, Audio Technica ATM 250DE, Neumann U47, Roswell Aurora
A/D Converter	Avid HD I/O

Directions:

1. Download impulse responses onto your computer.
2. In your inserts chain, add the reverb impulse loader of your choice.

NOTE: Your DAW likely already has one built-in.

Cubase - Reverence

Logic - Space Designer

Studio One - Open Air

Reaper - ReaVerb

Pro Tools - none :-(

There are plenty of excellent free third party options as well.

PC - Reverberate LE

Mac - LAConvolver

****These impulses CANNOT be used with cab loaders as the lengths supported by cab loaders are not long enough to host reverbs****

3. Load 3 Sigma Audio Impulse Responses into the IR loader.

****Never used IRs before? Check out our YouTube for helpful tips and tricks!****
